CPDA Announces Webinar to Discuss Findings from Recent In-depth Analysis of the Leading Simulation Data and Process Management Solutions

Riverside, CT – For Immediate Release – Collaborative Product Development Associates (CPDA), a provider of critical analyses for PLM decisions, announces that it will host a complimentary webinar on Thursday, January 21, 2010 at 11:00 AM (EST) for those interested in learning more about the findings from its recently published analysis of the leading simulation data and process management (SDPM) solutions. Speakers will include Michel Vrinat, CPDA's Program Director PLM, CAE in Europe and Dr. Keith Meintjes, CPDA's Research Director – CAE.

The webinar will last 60 minutes and will include a question and answer session.

Those registering to attend the webinar will receive a link enabling them to download a summary of the study's findings.
